

## **CanStar Non-drop (NDHT) GREASE**

---

### **PRODUCT DESCRIPTION**

**CanStar ND-GREASE** is a functional multi-use lubricating grease. It is recommended for bearing applications where temperatures are very high.

Since ND- GREASE does not have a melting point, it is ideal.

**CanStar ND-GREASE** has outstanding resistance to water washout so that lubrication is sustained under water contaminating environments. It provides excellent lubrication and minimizes oxidation in very high temperature applications, thereby promoting longer service life in these harsh environments.

### **APPLICATIONS / BENEFITS**

- ✓ Excellent anti-rust and anti-corrosion properties.
- ✓ Good pumpability in centralized systems.
- ✓ Resists water washout.
- ✓ Extended life in wet environments.

### **TYPICAL CHARACTERISTICS**

TEST DESCRIPTION	METHOD	TYPICAL RESULTS		
NLGI Grade		2	3	
Thickener Type		Clay	Clay	
Colour		Brown	Brown	
Texture		Smooth	Smooth	
Dropping Point, °C	ASTM D-2265	N D	N D	
Worked Penetration @ 25°C	ASTM D-217	265	230	
Rust and Corrosion Test	ASTM D-1743	-	-	
Water Wash Out	ASTM D-1264	-	-	

The values mentioned are typical, depend upon the quality of the base oil available and cannot be used to reject the product. However these properties can be altered to meet the specific requirement of the process/equipment.
